

## BRAKE FLUID HD *plus* DOT 4

**Description :** A 100% synthetic fluid for the brake systems of vehicles.

**Application :** Intended for the circuits of drum, disc brakes and clutches of vehicles.

**Specifications :**

- DOT 4
- SAE J 1703 F
- FMVSS n° 16

**Properties :**

- Very high boiling point.
- Excellent protection against rust and oxidation.
- Can be used during all year.
- Miscible with brake fluid DOT 3.

**Typical analyses :**

Density at 20°C	1,115	Color	Transparant
Boiling point sec °C	Min. 250 °C	Pour point. °C	< -50°C
Flash point °C	154		

These values are given as an indication, it acts of average values.
